

In order to meet high academic standards, regular and timely attendance in school is integral in the teaching-learning process. As a result, we are employing an electronic scanning system that utilizes a digital badge from a student's Real Time portal to increase efficiency in the school attendance recording process. In essence, students have the ability to simply scan into school using a picture from their phone.

Directions to take a screen shot of a digital badge:

1. Visit your student portal, and click “Documents”
