

Our Latest Adventure is Here: World Challenge Expedition to Bolivia, 2017!

Our Story

In 2015, over 80 Ramsey High School students experienced life-changing adventures that are still buzzing around the school. Our expedition to Ecuador provided Ramsey students with opportunities to reach their highest potential and experience the world as never before. By managing important aspects of the trip, students gained key life skills such as leadership, decision making, and resilience – skills which aren't easily taught in the classroom. Now our students will have the chance to travel to another unique and incredible destination – *Bolivia!*

About World Challenge – the global leader in student-led travel

Each year, World Challenge safely sends and supports more than 10,000 students from high schools around the world on powerful student-led expeditions. A World Challenge expedition is not a typical education tour or school trip. Students will expand their horizons by exploring diverse landscapes, cities, and rural communities. In choosing to join a World Challenge expedition, students enroll in a once-in-a-lifetime journey with their team mates. As a team, students will design their own unique itinerary according to their interests and goals. World Challenge facilitates this process to ensure maximum challenge and minimal risk. While on expedition, students will rotate through various leadership roles and manage many of the day-to-day logistics of their own adventure.

Here's a one-minute video to give you a glimpse of this incredible experience: www.youtube.com/worldchallenge1
